

## About PRO-IT

PRO-IT is a small team of experienced individuals who specialise in providing Technical consultancy and solution development services.

Since 1991 we have helped Business and Technical professionals in many organisations to define strategies; prove a point; design innovative solutions; protect their business — and win prestigious awards.

We are proficient in solving business problems and creating innovative solutions using application platforms based on Microsoft™ and/or Open Source technologies and interfacing with most of the major technical platforms.

## Professional Services—Positive Outcomes

PRO-IT provides Consulting (strategy, planning, design, problem solving and mentoring) and solution development services. Our strong track record is backed up with testimonials (with our customer's permission), references and case studies.

We are passionate about helping our customers to be successful and making solutions as simple, intuitive, robust and as scalable as possible. PRO-IT has customers who have their services for over ten years, and have solutions that have been in continuous service for over five years.

### Organizations That Have Benefited From Our Services Include:

Ashwood-Eco, Butterfield Private Bank, Blue Circle Cement, Britax Excelsior, Charterhouse Capital Development, GDA Technical Recruitment, GlaxoSmithKline, Heinemann, InterGen (UK), Marie Curie Cancer Care, Origin HR, Orion Pharma, Portsmouth Aviation, Reed Business Information, RTZ Mining & Exploration, Schroder Investment Management, Schroder Unit Trusts, Sky Broadcasting, Thermo Bioscience Technologies UK, Winterthur Life, and Wella Great Britain.

## Helping our Customers to Grow, Evolve & Protect their Businesses

PRO-IT brings to the table fresh ideas, up-to-date knowledge, and in-depth solution development skills proven in many key business projects.

Most of our customers have a highly competent IT team, but choose to use our services where they need to make a critical decision, fast-track a project, get up to speed quickly or rapidly solve problems.

From a high-level perspective we help our customers to:

- Turn their website into an effective business asset
- Develop end-to-end solutions that best match their business strategy and the way they want to work
- Assist with the management of change
- Avoid the pitfalls
- Make key decisions
- Get better management information
- Improve sales and customer service
- Enhance information flow and information sharing
- Improve communications
- Develop new revenue streams
- Automate business processes
- Proactively protect their business and keep systems running reliably
- Turn their plans into reality with minimum investment, support overhead and disruption.

## Our Technical Skills and Experience

- Technology strategy
- Website design and redesign (including shopping cart, content management, order processing, product registrations, SMS messaging, data feeds, secure FTP)
- Dynamic real-time reporting using graphical 2D and 3D charting components, Excel™ - like spreadsheet functionality, drill-downs, pivot tables and tabular or text-based reports
- Designing and developing tactical or business critical web and/or Windows™ business solutions (.NET Windows forms, Web services, ASP.NET, VB.NET, C#.NET, Java, JavaScript, PHP, AJAX)
- The integration of business applications and data on distributed Microsoft, open-source and IBM platforms.
- Database design, optimisation and web integration (MSDE, MySQL, MS SQL Server, Sybase, Oracle, MS Access)
- Permission-based data capture techniques
- Windows desktop and back-end services using MS .NET technologies (for example real-time reporting, web services, e-mail automation, FTP, SMS messaging and business process workflow)
- Server platform specification, optimisation and resilience
- Infrastructure design, optimisation and robustness.

And much, much more...

## Why do People Choose to Use Our Services?

- The person you work with has first-hand experience of what you are considering and has most likely developed a similar solution before.

- We value our reputation so we do all we can to assist you to drive a project to a satisfactory conclusion
- PRO-IT has never had an axe to grind and does not have partnerships with preferred vendors
- We are discrete, diplomatic and maintain confidentiality
- You deal directly with the person, that you have briefed and knows what you want to achieve.

## How PRO-IT Can Help You

To find out more about our services, business experience or proficiency in any specific technology, just call 01256 358303 or Email [info@pro-it.co.uk](mailto:info@pro-it.co.uk).

In complete confidence, at no cost and with no obligation whatsoever we would be pleased to learn about what you would like to achieve, and propose how we could best help you.
